### Objective

Computer Application Student capable of managing technology projects from concept to completion with remarkable deadline sensitivity. Capable with web development, well known about object oriented programing. Good communication skill.

### M.C.A Masters of Computer Application (Management)

Education	University/ Board	Percentage	Year of Passing
M. C. A(Pursuing)	SAVITRIBAI PHULE,PUNE UNIVERSITY	-	2022
B. C. A	SAVITRIBAI PHULE,PUNE UNIVERSITY	80.70	2019
H. S. C	MAHARASHTRA	65.00	2016
S. S. C	MAHARASHTRA	91.40	2014

### Technical Skills

- **Languages:** C, C++, Java, PHP,JAVA SCRIPT, VISUAL BASIC
- **Operating Systems:** Windows 8, 7, 10,
- **Web Technologies:** HTML, CSS
- **Database:** ORACAL10g

### Projects Undertaken

Project 1 **Project title** –College Event management system

**Language:** - java

**Database:** -My SQL

**Project Description** --- The main objective of this project is to develop general purpose software for college Event Management mainly to computerize the managing process. The proposed software will reduce the paper work as well as manual labour of the Company.

Project1      **Project title (BCA)-** Rural development management system

**Language:** -visual basics.

**Database:** -MS Access.

**Project Description** --- “RURAL DEVELOPMENT MANAGEMENT SYSTEM” uses Microsoft Visual Basic 6.0 as front-end and Microsoft Access as backend for data base. There are many forms used for making interface with the user, along with the MDI (multiple documents Interface form, Transaction, Master Forms, Windows Just like) In it has Menu option and menu also has submenu. which some forms are transaction forms which are used for reserving the details from the customer according to the requirements and canceling as user requirement. These forms can handle all the Requirement of user. The system requires comparatively small amount of resources such as memory input output devices & disc space .Event the new trainers & event. If they nontechnical they can easily work with the system.

Project2      **Project title (BCA)-** online survey system

**Language:** -java

**Database:** - MS - SQL Server, MySQL

**Project Description:---**

- We make the project on “Online Survey System”. The main aim of developing this online survey system is to conduct an online survey on different topics of the users. In this JAVA application, the user can take part in various online polls.
- In this application admin can add the polls regarding different questions and different topics and he/she can see the result of each poll. Online Survey System is a web based application developed in JAVA Programming Language to facilitate online survey. Another aim of the project is to form a platform to collect the viewpoints of related peoples about certain issues using the internet. Along with launching survey, it is capable of giving email notifications.
- It can be implemented in any Organizations, Schools or Colleges for carrying out survey of any kind. In this system of survey, only the users authenticated by admin from the database system can drop their vote or express their viewpoints regarding their issue. Being online software, it can be logged on from anywhere with internet access.

**Personal Details**

<b>Name</b>	Kulkarni Neha Nandkumar
<b>DOB</b>	13/05/1998
<b>Address</b>	Pathare colony, Magazine chowk, dighi alandi road, dighi, pune- 411015
<b>Hobbies</b>	Listening music, gaming. Creations best from waste.
<b>Blood Group</b>	B+
<b>Extra Curricular Activity / Awards</b>	Organized various programs at college level
<b>Research Contribution</b>	Impact of online education on students
